

The Four Villages
Community Health Centre

Working Together for Whole Health

October 2010

Your Community Health Centre is accredited!

We are proud to announce that The Four Villages Community Health Centre has again received full accreditation from Community Organizational Health Inc (COHI) on August 20, 2010.

This year, The Four Villages Community Health Centre underwent its fourth accreditation review, called Building Healthier Organizations or BHO. The accreditation process takes into consideration all aspects of the organizational life: governance, management, administration, services and programs as well as work with the community.

Beyond enforcing a set of mandatory and good practice standards, BHO is also a tool to foster learning, excellence, and innovation. Four Villages met all the Standards of Mandatory Practice and achieved more than the required number of Standards of Good Practice. Furthermore, the accreditation review confirmed that Four Villages has achieved innovation and excellence in the following areas:

- Leadership and Planning
- Creating a Safe Environment
- Accessibility
- Client-Centred Approach
- Client Record Audit

We are very proud of our achievements and will continue to do our best to serve our clients and maintain the highest quality in the delivery of community based primary health care.

We also thank our partners for working closely with us in building a stronger and healthier community.
